

The 2006 First Ever Gumshoe 5K Walk solved ...

- | | | |
|----|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | 1 | Exit Starbucks, turn left, then left again until you're in front of the two gas meters. Add the digits following the "X" in the "X" meter number and divide the sum by 11. Your answer is? |
| 2 | Japanese | Continue the way you were headed until you run into the "Rock." Just before you hit the wall, look to the right: Japanese or Chinese? |
| 3 | Help | Turn left, go to the stop sign, turn right and go to the marked crosswalk. Turn left, cross the busy street and turn right. Look ahead. What's "just around the corner?" |
| 4 | Pesticides | Continue until you're under the "corner" awning, then turn left. Keep on walking through two "tree tunnels" and look to your right after the second one. What won't you find in this zone? |
| 5 | Shell | Continue to the next corner, turn right and go until you have to turn again. Turn left and go to "200." Texaco or Shell? |
| 6 | Blue | Continue the way you were headed until you come to the busy street. Carefully cross, then turn left into the roadside garden. What's a dirty bird's favorite color? |
| 7 | Skateboarding | Return to the "200" street and turn left. Go to "412." For what sport is the front yard designed? |
| 8 | ET | Continue through the plant archway to the next right hand turn. Turn right and go until you see the "nautical" railing. Who tows parking violators from the garage directly below it? |
| 9 | Our | Continue to the park. Whose park is it? |
| 10 | Eeva | Enter the park and cross the green. Who is the third of Momo's girls? |
| 11 | Fairy | Pass under the "fez," follow the path to the sidewalk and go to the nearest traffic circle. According to the sign, what crosses here? |
| 12 | Lions | Facing the "crossing" sign, turn left and continue. At "327" a pair of what guards the stairway? |
| 13 | Me | Continue to the next stop sign, turn right and go to the big yellow sign. You or me? |
| 14 | Nothing | Continue to the next corner, turn left and carefully cross the busy street. Continue to the next traffic circle. What is written on the yellow signs in the middle of the circle? |
| 15 | 3 | Head in the direction of the neighboring traffic circle with signs in the middle of it. Go past the circle to the garage with the number. Add the first and last digits of the number, divide the sum by the number of tall lamp posts leading to the house. What's your answer? |

- 16 **Bust** Continue the direction you were headed until you run into "109." Turn left, cross the next street and look at the house on your right. Boom or bust?
- 17 **Huss** Walk to the blue awning and follow it into the first store entrance underneath. What "mann" cools the cheese?
- 18 **\$6.99** Exit the store, turn right and go to the store under the red, white and blue awning. How much does a 24" universal thermocoupler cost before tax is added?
- 19 **3** Exit the store, turn right, go to the corner and begin retracing clue #4's route. At the first intersection after the first tunnel, cross the street, turn left and walk until you come to the brick paved parking strip with the hearts. Divide the number of hearts by the number of street trees in the parking strip. Your answer is..?
- 20 **Dani** Go to the nearest fire hydrant, then continue up the hill to the park. Wayne and who want you to tell them a story?
- 21 **2** Continue on the same street you were on for clue #18 until you come to the stop sign with the "only" arrow. Follow the arrow to the house with the "decorated" tree. What's the cube root of the sum of the house number digits?
- 22 **Sun** Cross the street that goes down the hill to continue on the street that runs along the side of the hill. Stop at "6225." Sun or moon?
- 23 **Radio** Go to "6044." TV or radio?
- 24 **Yes** Continue until you run into the garage. Turn left and go to the next corner. Cross the street, turn right and go until you come to the underpass on your left. Go through the underpass. If you were as tall in feet as the speed limit, would you have to duck to go through?
- 25 **Sunny** Go past the next stop sign. Just before the speed bump, turn left and follow the left branch of the path to the playground area. What was the name of Rosie's Wonder Dog?
- 26 **True** Go back to the path and continue to the sidewalk. Turn right and go to the nearest intersection with a traffic light. Enter the store under the black awning. Who manufactured the machine that holds the Odwalla?
- 27 **C** Exit the store and turn right. Go past the cleaners to the next corner and turn right. Continue to the next corner, turn left and go past the charcoal-colored building. A, B, C or D?
- 28 **Trout** Continue until you run into "458." Turn left, cross one street and go to the next. Turn right. According to the cow, what fish is served with eggs?
- 29 **\$5** Cross the next street. If you get a "Deluxe" buzz cut, pay for it with a \$20 and give half the change to your cutter, how much have you tipped?
- 30 **Change** Continue to the next park. According to Gandhi, what must you be if you want to see it in the world?
